

## Bible Quotation Puzzle Number 4

### ONE OF SOLOMON'S OBSERVATIONS ABOUT FICKLE HUMAN NATURE

The letters in each column go into the squares directly above it, but not necessarily in the same order that they appear. The end of each word is represented by a black square. Some words may wrap to the next line. When you have entered all the letters into the correct squares, you will be able to read one of Solomon's observations about fickle human nature. (Prints best in landscape mode.)
