This booklet of study questions is designed for use at congregation book studies. It is believed that all will benefit personally by becoming thoroughly familiar with the contents of the book **Is the Bible Really the Word of God?** As we all become better acquainted with the book, we will also be more eager to place it with others to strengthen their faith in the Bible. Of course, this should also prove valuable for use at home Bible studies.

When conducting the study, first have the paragraph(s) read and then invite those present to answer the questions and to read and comment on the scriptures cited. You will find that the questions are not overly detailed. This allows for those present to make more comments on each question and also for those who are more familiar with the subject to bring in related material not found in the text-book. By encouraging such full participation, the one conducting the study will help to make it of the greatest benefit to all in attendance. Where time permits, there could also be Bible reading and discussion based on portions assigned for the Theocratic School for that week.
