## Side Effects

Many adverse reactions, and even deaths, are occurring from taking the experimental biological agent referred to as a COVID19 "vaccine". And no one knows what other side effects may show up in the future from taking this experimental treatment.

And what are the side effects of actually catching COVID19? Lifelong natural immunity. Yes, the human body that Jehovah created has the best design of all to handle such things.

Of course, if you are in very ill-health, even the common cold can be lethal to you. But a healthy individual has less than a 0.1% chance of dying from COVID19 if untreated. And if they are actually treated with Ivermectin or hydroxychloroquine or other well established successful treatments, their death rate is reduced to practically zero.

Hospitals get paid a lot of money to put people on ventilators instead of giving them the cure. Yes, hospitals are responsible for the deaths of thousands of individuals.

If you have done ANY research at all you will know that the death rates of COVID19 have been extremely exaggerated by claiming all sorts of deaths as COVID deaths.

The same widespread false reporting is happening with COVID19 "vaccine" deaths. They are being labeled as other causes when the truth is it was the "vaccine" that caused their death. Even the reporting of non-lethal but still very serious side-effects of the "vaccine" are vastly underreported. Remember that when you hear reports in the media.

And did you know that MOST of the people that are in the hospital because of COVID have already been "vaccinated"? And when they die, their "vaccination" status is being hidden? Why? Because the government does not want you to know about the ineffectiveness of their so called "vaccine". Hospitals are even giving better treatment to the "vaccinated" to help push their narrative.

The COVID "vaccine" does not stop you from contracting COVID. It does not stop you from spreading COVID if you catch it. It does not stop you from dying from COVID if you catch it. And since the vast majority of those in the Hospital with COVID have already been "vaccinated", it would seem that the "vaccine" makes you more vulnerable to COVID. So why risk taking the "vaccine" if you are a young healthy individual?

The people pushing the COVID "vaccine" are getting rich (richer) from the "vaccine". Why would they stop pushing it? They wouldn't. They don't care about you.

These governments pushing this "vaccine" on healthy, extreme low risk people are controlled by the ruler of this world and do not have your best interests at heart. Unfortunately the FDS have bought into this deception and are also pushing Satan's agenda. *"Foolish"* indeed. (1Co 1:27)

I know that the governments are pushing hard, and are attempting to make it where *"nobody can buy or sell except a person having"* had the shot. (Re 13:17) But PLEASE make a well informed decision about this!

"If I don't get vaccinated, I am 100% protected against vaccine side effects, and 99.8% protected against Covid. That's a good deal."

Vaccinated Person: "If you're unvaccinated, then you are a risk to the vaccinated."

Un-Vaccinated Person: "But if I get vaccinated, then I'll be the one at risk from the unvaccinated."
